Payment	Full service fee payable upfront on return of this contract

Account Details

HUGHES PASTORAL CBA BSB: 064-707 ACC: 10455049

Payment reference: Invoice number and owner's name

1. The **Service Fee of \$3,300** must be paid in full upfront when this breeding contract is returned. The booking is not confirmed and semen will not be released or collected until cleared payment and the completed contract have been received. Agistment, veterinary and other breeding expenses must be paid in full before the mare departs Wilmor Downs.
2. Mares bred to **YAVEN SPINACAT** at Wilmor Downs Equine Breeding Services will be managed under Wilmor Downs' current breeding and veterinary fee schedule. Unless otherwise confirmed in writing, breeding drugs, veterinary fees, scans, artificial insemination, agistment and other associated charges are additional to the Stallion Service Fee.
3. **On-farm mares will be catered for first.** Shipped chilled semen is limited and is subject to the stallion's availability, collection schedule, semen quality and commitments to mares at Wilmor Downs. Wilmor Downs and the Stallion Owner do not guarantee that chilled semen will be available on a particular day.
4. Where shipped chilled semen is approved, at least 24 hours' notice is required. A current Semen Collection Form must be completed and all collection, handling and shipping charges must be paid before semen is dispatched. Any repeat collections and shipments will incur the applicable charges.
5. **Frozen semen is available on request** and subject to availability and written approval for release. Frozen semen storage, handling, freight, artificial insemination and veterinary charges are additional unless otherwise agreed in writing. The Mare Owner and attending veterinarian are responsible for the timing and method of insemination.
6. Wilmor Downs and the Stallion Owner will take reasonable care in collecting, processing and dispatching semen but will not be liable for contamination, loss of viability, transit delay, damage, loss or mishandling after dispatch. No guarantee or warranty is made regarding the condition of semen on delivery or the resulting pregnancy rate.
7. The Mare Owner warrants that, to their knowledge, the mare being bred to YAVEN SPINACAT and any mare arriving at Wilmor Downs is in good health and has not been in contact with contagious equine metritis, strangles or any other infectious disease. A veterinary pre-breeding examination is recommended. Mares must be dewormed and current for tetanus and strangles vaccinations before arrival.
8. All veterinary expenses, including scans and any treatment required while a mare is at Wilmor Downs, are payable by the Mare Owner. To the extent permitted by law, Wilmor Downs and the Stallion Owner are not responsible for injury, disease, accident, sickness or death of the mare or foal, or other loss incurred by the Mare Owner, except where liability cannot lawfully be excluded.
9. Agistment will be charged at Wilmor Downs' current published rates from the mare's day of arrival until the day of departure. Any private paddock, hay, hard feed, veterinary treatment or special care required will be charged separately.

10. A **Live Foal Guarantee** applies if the resulting foal is stillborn or dies within 48 hours of birth. A report certified by a practising veterinarian must be supplied within 10 days of the foal's death. The Mare Owner may then return the same mare for one breeding in the 2027 breeding season without an additional Stallion Service Fee. All collection, freight, veterinary, agistment and other associated charges remain payable. This guarantee is valid for the following breeding season only and is not transferable.
11. AQHA breeding returns will only be submitted where the mare named in this contract is registered with the AQHA when the contract is signed and the Mare Owner supplies complete and accurate registration details. Any late or additional association fees are payable by the Mare Owner. ASH breeding certificates will be available on request for eligible ASH-registered mares after the resulting progeny is born.
12. When the Mare Owner signs and returns this contract, it becomes binding on the Mare Owner and Stallion Owner, subject to these terms and conditions. This contract and the Stallion Service Fee are not transferable or assignable. If the contracted mare is sold, any outstanding charges become immediately due and payable by the undersigned Mare Owner.
13. If YAVEN SPINACAT dies or becomes unfit for service, or the contracted mare dies or becomes unfit for service, the parties will promptly discuss the available options. Any agistment, veterinary, collection, freight or other costs already incurred remain payable by the Mare Owner. Any refund or replacement breeding is subject to the Stallion Owner's written approval and applicable law.

Please pay the full service fee when returning this breeding contract
